

The Power to Save Lives

289,000 women die every year from complications of childbirth, often giving birth in dark and unsafe conditions.

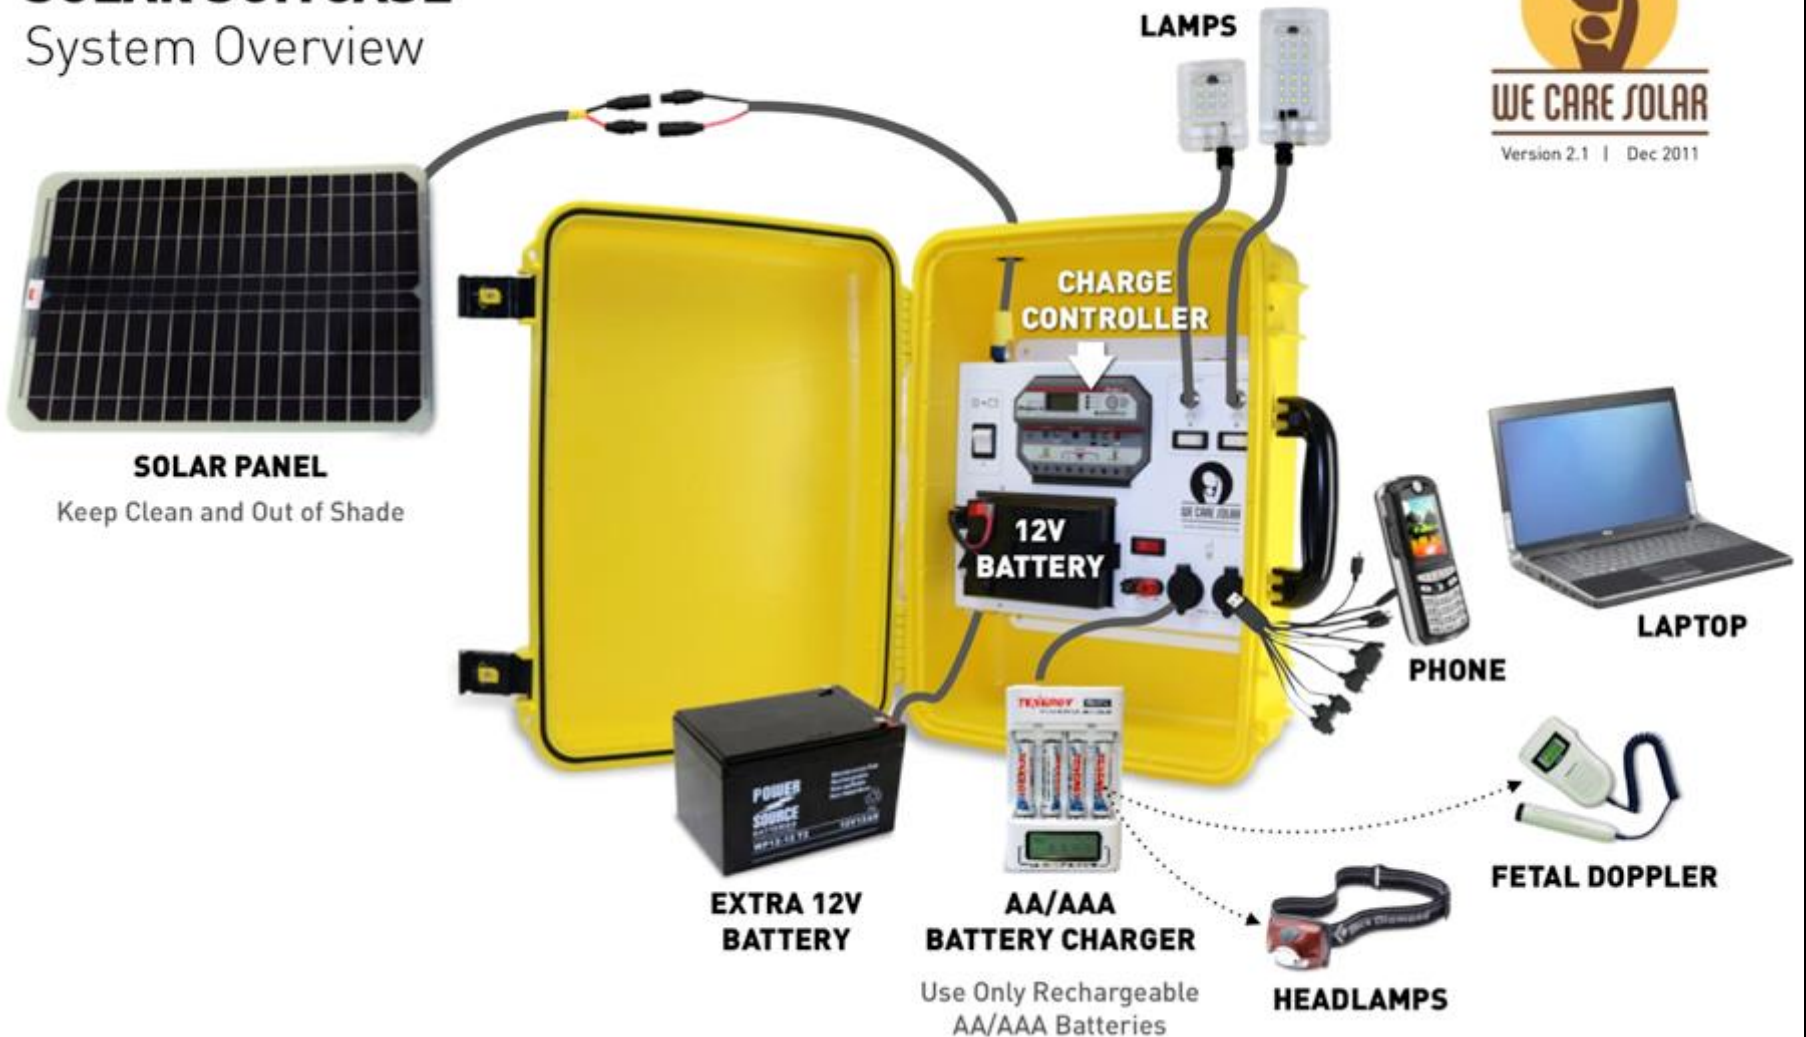

Around the world, 300,000 health centers are without reliable electricity.

# SOLAR SUITCASE

## System Overview

The We Care Solar Suitcase makes solar electricity accessible to off-grid health centers.

# Malawi

The Solar Suitcase provides the power to save lives. Health workers have reliable lighting, phone charging and no longer fear night duty.

# Malawi

Midwives can monitor fetal well-being during labor and safely care for newborns after birth.

Uganda

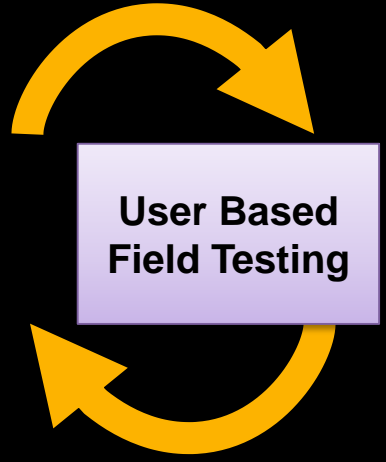

Surgeons can conduct emergency c/sections through the night.

without fear or boundary

World Health Organization

We collaborate with international and local agencies around the world to reach thousands of health centers.

Working with 25 partner organizations, we have equipped more than 1,300 health centers in 27 countries, serving more than 600,000 mothers and infants.

# Sierra Leone

Our “Train the Trainer” program empowers midwives to become solar educators.

# Sierra Leone

Through our programs, health technicians gain the capacity to become solar installers.

Our team of Women Solar Ambassadors lead our international training programs.

# Malawi

To date, our solar training programs have reached more than 5,000 health workers.

# Ethiopia

Our Solar Suitcases replace candles and kerosene lanterns and improve health workers' morale. A detailed evaluation of health service delivery impact is being conducted with Hamlin Fistula.

# Tanzania

Uganda

Uganda

# The Philippines

After Typhoon Haiyan, we responded to the need for emergency power in the Philippines. To date, 260 Solar Suitcases have been deployed to the Philippines.

Liberia

Sierra Leone

We provided Solar Suitcases to health workers fighting Ebola, and are now supporting efforts to rebuild maternal health services in Sierra Leone in the wake of Ebola.

# Nepal

In Nepal, we reached more than 100 remote health centers after the 2015 earthquake through a partnership with One Heart Worldwide.

# Nepal

Our Solar Suitcases are helping midwives attend to the 126,000 pregnant women in need of obstetric care after the Nepal earthquake.

We have played a leading role in international advocacy efforts.

In September, we were awarded the inaugural United Nations Department of Social and Economic Affairs “Powering the Future We Want” Award.

“The Solar Suitcase is a true lifesaver in regions where night means death to those who are in need of critical medical care.”

- *Dr. Jacques Sebisaho, Democratic Republic of Congo*
