## **GENERAL NOTES**

These notes provide guidance to Ministries, Provinces Spending Agencies (MPSAs) on budget execution. In this regard, MPSAs are required to submit their annual procurement plans and funding profiles to the Treasury before the commencement of the financial year. This will assist the Treasury plan the overall Government cash flow so that funds are released in time.

Another important aspect with regard to budget implementation is the need to curtail the variation of funds from one programme to another as this often leads to a failure on the part of Government to achieve the intended objectives. In this regard, MPSAs are advised to familiarise themselves with the following budget execution guidelines.

All MPSAs are expected to commence preparation of annual funding profiles (by month) for the 2016 budget immediately after the approval of the National Budget. MPSAs will however be allowed to make adjustments to their funding profiles, on a quarterly basis, where necessary.

1. The 2016 budget estimates are based on Government priorities.
2. The following principles should be adhered to:
  - a) MPSAs may transfer funds between programmes or activities, but no transfer of funds to and from “Personal Emoluments” and “Non-Personal Emoluments Programmes” will be allowed except with Parliamentary approval.
  - b) Requests to vary funds from one Department to another must be submitted to the Ministry of Finance for

consideration by the Secretary to the Treasury and subsequent approval by Parliament.

- c) MPSAs that have been authorised to appropriate revenue will be required to obtain Appropriation- In-Aid Guidelines from the Accountant General's Office before they start to appropriate the authorised amounts.
- d) MPSA's will not be authorised to vary funds from Appropriation in Aid departments to non-Appropriation- In-Aid departments.
- e) MPSAs will be required to follow the Appropriation-In-Aid Guidelines and the Financial Regulations, Statutory Instrument No. 111 of 2006 without fail. No revenue shall be appropriated above the approved estimates of expenditure without prior permission from the Secretary to the Treasury.
- f) In addition the following conditions should also be complied with:
  - i. Heads of Departments must propose variations within the programmes/activity giving justification for the variation and should be approved by the Controlling Officer;
  - ii. Variations from one programme to another, with justification must also have the approval of the Controlling Officer through the respective Director/or Head of Department;

- iii. Variations between programmes must not exceed 10 percent of the approved allocation on any programmes; and

3. The implementation of these programmes/projects demands high levels of accountability and transparency. The amounts released for programmes/projects **must exclusively be used for the intended purpose.**
