

National Health Insurance Authority

Ghana's National Health Insurance Scheme: An Overview

.....

Presentation to CABRI HEALTH DIALOGUE II

Date: July 9, 2012

CONTENTS

▶ Background & benefit package

▶ Membership, utilization and cost trends

▶ Accreditation

▶ Income sources and expenditure

▶ Adaptable lessons

▶ Way forward

growing stronger & healthier

Background of NHIS (1)

- ✚ Before NHIS was established, the health financing policy included reliance on user fees (better known as “cash & carry”. The object of that policy was to recover 15% of the health sector’s recurrent expenditure. As it turned out, this system was neither a social nor financial success.
- ✚ Established by an Act of Parliament in 2003 (Act 650) in response to challenges posed by “Cash and Carry” system
- ✚ It is a **Social Health Protection Policy** to secure financial risk protection against the cost of healthcare services for all residents in the country; particularly, the workers of the informal economy considering that over 90% of Ghana’s workforce are in the informal sector.
- ✚ Act 650 makes provision for **3 types of schemes**
 - *District (Public) Mutual*
 - *Private Mutual*
 - *Private Commercial*

Background of NHIS (2)

- ✚ **Innovative financing system with following components that covers both the formal and informal sectors**
 - *Tax-based financing (NHIL)*
 - *Social health insurance (Social security contributions of the formal sector)*
 - *Community-based health insurance (informal sector)*

- ✚ **Contribution mechanism**
 - *National Health Insurance levy (NHIL) - 2.5% consumption tax*
 - *2.5 percentage points of SSNIT contributions*
 - *Graduated informal sector premium based on ability to pay and income status (GHC7.2 – GHC48)*

- ✚ **NHIS started as pilot with in 45 districts but is now national programme**

Measures to ensure financial Sustainability

Cost containment

- ✓ Clinical Audits
- ✓ Consolidated premium account
- ✓ Uniform prescription form with prescriber identification
- ✓ Link diagnosis to treatment
- ✓ Electronic claims management
- ✓ Support disease prevention activities

Capitation - Piloting in the Ashanti Region

Proposed additional funding sources

- ✓ Increase in Health Insurance Levy (NHIL)
- ✓ Levy on Petrochemical industry
- ✓ Review NHIL exemptions policy
- ✓ Road Fund

Adaptable Lessons from NHIS (Ghana)

(2)

+ Innovative funding:

- *Earmarked fund – NHIL (2.5% VAT)*
- *2.5 percentage points of 18.5% Social Security Contributions*
- *Informal sector contributions*

+ Promotion of acceptability through community ownership using district based sub-schemes

+ Non-partisan political will of Government and entire population

+ Comprehensive Accreditation system

- *Public, Private & Mission facilities*
- *Assess staffing, management systems (including quality and safety)*
- *Health care delivery systems and processes*
- *Well accepted due to participation by all stakeholders*

+ Involvement of both public and private health care providers

growing stronger & healthier

Way Forward

- ✚ **Enhance financial sustainability** through additional sources of funding and cost containment
- ✚ **Increase membership** through coverage of the poor and increasing enrolment of the informal sector
- ✚ **Contribute to securing universal access** to healthcare through a mandatory health insurance scheme
- ✚ **Improve computerization of operations**
- ✚ **Link diagnosis to treatment**
